

Our partners in [KB Photo](#) offer two services for family history clients:

- Have your old family photographs digitally restored to their full glory at KB Photography's Rathfarnham premises. Have a look at the KB Photo [blog](#) showing some of their recent work.

- And, for those who would love to see your ancestor's home town for yourself, but simply cannot, KB Photography provides location photography. Linking with Irish Family Footsteps' research, they provide high-quality, beautiful photography of the town and landscape your ancestor came from. Your photograph portfolio can include the church they were baptised in, the farmland they lived on and perhaps their gravestone. You may be lucky enough to find that the old family home still stands and with permission of the owner, a photograph may be possible.
